Palo Alto, Calif. 94304

SUBJECT:

"The Adamantine Dodecacycloid" and
Hamiltonian Circuitry

MESSAGE

Dear Dr. Lederberg:

With this April newsletter I am adding a special bonus for you, because you are one of the few people in the world who have brought "Hamiltonian circuits" to the attention of chemists. Enclosed are two of 14 diagrams I have made to discuss locant circuits in this polyadamantine gem of a structure, and I will be glad to exchange all the others with you if you wish to trade copies of your latest December & January "Dendral, etc." NASA reports with me.

With best regards,

Wm. J. Wiswesser
